

WATTSMART® IDAHO PROGRAM OVERVIEW

DUAL FUEL HEAT PUMPS

Dual fuel technology combines the efficient heating and cooling performance that you get from a heat pump with the consistent heating capacity of a gas furnace. In summer, the heat pump works like a high-efficiency central air conditioner. In spring, fall and winter it provides efficient heating, while the gas furnace takes over only when needed during the coldest months of the year.

REBATE INFORMATION

With Rocky Mountain Power, we make it simple to save on a high-efficiency heat pump and furnace combination.

BENEFITS

Energy
Efficient

Quiet
Operations

Adaptability
& Versatility

Environmentally
Safe

DUAL FUEL HEAT PUMP PROGRAM REQUIREMENTS

- Dual Fuel Heat Pump system must include a minimum 8.5 HSPF/14 SEER Heat Pump with the addition of a 90% AFUE natural gas or propane furnace.
- Work must be performed by a Program eligible HVAC trade ally.
- DFHP must be installed according to the specifications outlined in the Idaho Technical Specifications Manual.
- Heat pump must have a AHRI* number listed on the AHRI Certified Directory.
- Previous primary heat source must have been a ducted natural gas furnace with CAC that served at least 80% of the home's conditioned living space.
- DFHP must be a new, air-source split or packaged unitary heat pump with an AHRI Standard Rating Cooling Capacity of 65,000 BTU/hr (5.4 tons) or less.
- Homes 3,500 square feet or less may qualify for one unit, while homes greater than 3,500 square feet may qualify for two units. Homes greater than 3,500 square feet requiring more than two units may apply for additional rebates (additional documentation required, contact program for more information).

*AHRI - Air Conditioning, Heating, and Refrigeration Institute

EQUIPMENT PURCHASE & SERVICE	CUSTOMER REBATE
Dual fuel heat pump conversion	\$2,000

\$300 Trade Ally rebate on DFHP

ADDITIONAL PROGRAM RULES

- Submit all documents within 90 days of the qualifying service completion.

QUALIFICATIONS

- Existing homes only, not for New Construction.
- Manufactured homes do not qualify.

For New Homes rebates and qualifications please refer to the [wattsmarthomes](http://wattsmarthomes.com) website or contact us at wattsmarthomes@rockymountainpower.net

REQUIRED REBATE APPLICATION DOCUMENTS

- DFHP Application
(Use the [Rebate Portal](#) to access the Application.)
- Invoice
- AHRI Number

HOW TO APPLY

STEP ONE: FIND A CONTRACTOR →

Prior to starting a project, find a program-eligible HVAC contractor.

STEP TWO: APPLY ONLINE →

Review the rebate qualifications and list of required documents with your contractor and apply online within 90 days of project completion.

STEP THREE: STATUS →

Receive your check. Rebate checks are issued within 14 business days after we review and approve your rebate application.

CUSTOMER ELIGIBILITY

Residential electric customers residing in the state of Idaho who purchase their electricity from Rocky Mountain Power on rate schedules 1 or 36 qualify. Landlords who own rental properties served by the company in the state of Idaho where the tenant is billed on rate schedules 1 or 36 also qualify for this program.
